**Animal Weight (in Pounds)** 1421

**Date of Reported Weight** 07/15/2020

**City** Rush

### **Description**

My name is Lane Anderson and this is my 7th year in 4-H and my 5th year in the market beef project. This year was a special year for the market beef project for many reasons. The first being that we had this virus going around and were done with school earlier. During this time I had the time to work with my steer which helped me when I showed. The second reason being that he was already almost minimum weight at weigh in this year. This made me not stress that my animal might not make weight. The third and last reason, is the fair was more about the kids this year instead of all of the other things. Fair this year was more fun because we did not have the stress of trying to get everything ready weeks before fair and did not have to stay up there with all the noise in a camper.

**Quantity:** 1
