### **Description**

**Hello El Paso County Buyers,**

**My name is Beau Ullom I'm 15 years old and I have been in 4-H for 7 years and I'm on The Calhan Ranch Hands 4-H club and I am also actively apart of FFA. I started in 4-H showing market lambs, I've showed lambs for 6 years and market beef for 3 years. My passion however does reside with my Steer project mainly because, my family and I do raise cattle and everything that we produce is pursued with quality practices. I plan to go to college for Animal Nutrition and I plan to continue to expand my knowledge in the cattle field run my own Business and work full time I plan to attend college and pursue creditials in a few different fields that can cohesively mesh with one another. That is why I have been the influence on my family to build what I can now before I head to college. I have taken it upon myself to learn along side with my father techniques to optimize success. we study**

**nutrition, we have learned how to do Artificial Insemination, and we practice healthy procedures. I am very proud to be pursueing in an industry that has such a high demand and I take a lot of pride in everything I produce. I don't purchase my calves I raise each year because the importance of producing it myself means a lot to me, the gain in knowledge for my future is truley the reason why I do 4-H. The calves I bring To the El Paso County Fair Is manufactured by blood, sweat and tears, because most times im not only just feeding, washing, grooming, breaking, walking, and loving my calves I also have a whole heard to look out for as well. Thank You for Reading**
