Description

Tucker is a 1300 pound Charolais steer bought that has been my baby for the last year!! Tucker has always been a big ole teddy bear that you can just love all over. I used my goat money from the Houston Livestock Show last year where I place 7th in my class to help purchase him along with borrowing the rest from the bank to do this project. Hoping to put him in the sale in Houston was a building excitement I cant explain hoping to get him in the class 3 Charolais and show this Wednesday morning. Tucker gets rinsed at 5:15 every morning and combed out, then put under fans for his breakfast. This is the start to a long day filled with athletics, band, twirling and honors classes. Once we are home the barn chores come first then off to the books and homework till sometimes late into the night, but every minute is worth the chance to be a champion. If you find it in your heart to help out we will be paying the bank off and reinvesting the money into a project for next year to be right back in the same work routine, once again with those dreams of being a Champion inside along with outside that showing.
