## Description

i was supposed to show Bear at the Houston Livestock Show and Rodeo. But because of the Corona Virus, I wasn't able to go show. He is an angus, we showed him at his last show in fortworth. Any donations would be greatly appreciated, Thank you for your time & consideration. It took a lot of time and hard work on this steer. Only wished we could have went all the way. Whatever money I get I plan to purchase next years animal. Bear he was one of a kind when we first got him. He hated people, didn't want u to touch him or go anywhere near him. He weighed 300lbs, we never thought he would become what he was today with a lot of time and hard work and days after days of working him. I had a massive sweeter calmer steer who loved to lick u non stop. He was definitely my toughest animal to ever deal with. I'm looking forward to the one for next year in hopes of doing awesome on this auction. Thank you all so much for taking the time to read and look and what work I have put in to bear. The reason for his name was because when we first got him he was little a mean and acted like a grizzly bear lol some of u would get that. He will be the most missed

**Quantity: 1**
