This is my Hereford steer, Spot, named because of the red spot on his left cheek. He was born and raised by Delaney Cattle Services from whom I purchased him in November of 2019. At birth, he weighed 120 lbs and is now weighing over 1,400. Although I've grown up on my family ranch and been around cattle my whole life, I've never shown cattle and am glad to have this opportunity. As a member of the Valentine FFA Livestock Judging Team, I appreciate the additional chance to personally be involved in showing cattle and producing quality beef for Cherry County consumers.
