Start Time: 8/6/2020 1:00 PM

End Time: 8/6/2020 1:00 PM

XBred Black Steer

Born March 2019

Raised and cared for with a lot of blood sweat and tears. I loved every moment. My cattle projects are my favorite in this being my 3rd year in 4H.

I hand fed him twice daily with special made mix of corn, oats and protein. I topped of his bunk with hay.

Thanks to COVID-19 and limited social distancing, I had unlimited time to dedicate to this project. I learned a lot this year, especially patience. I found out if I sat still and talked to my steers they got to know me. I was able to step up my abilities this year and brushed, washed and dried the steers while learning how not to get ran over or kicked.

I am already making plans for this Fall when I will be in the 4th Grade. I am planning on adding more projects for 2021, such as the Sandhills Production Class. I enjoy being part for our family cattle production from beginning to end.

Quantity: 1
