**Description**

Hello! My name is Rhiannon Painter and the market steer shown here is named Pancho. He is a Black Angus, which was weaned from one of our homegrown cows.

This is my third year of showing market steers in 4-H. I have also shown bucket calves and breeding heifers, but showing steers has been my favorite and most invested project to say the least. When I first started showing steers, I knew basically nothing about the project. Each year I learned something new and grew my interest as well.

The financial support I receive from this auction and from my previous projects is going to help me through college. Thank you for considering supporting my livestock project!
