### **Description**

Logan was born February 4 2020 and was a twin. He's a very flashy boy as he's a Dapple Boer wether. This is my second year raising a market goat and also my second dapple. I enjoy showing animals that look different and stick out in a bit in a class full of traditionally colored goats. While it does draw attention of the judge, it also means if I do something wrong in the class it will definitely be noticed. Logan lives at my house with my two other Dappled Boer and spends the days in the pasture with a flock of ducks. It's fun watching them together. Raising goats has taught me responsibility, the importance of a balanced diet and exercise. I hope you will bid on my goat as his sale will support the care of my other goats and next year's market goat.

**Quantity:** 125
