Description

My name is Halle Houck and I am a sophomore at Henrietta High School. I have two heifer projects this year. I bought both of my heifers from David Faber who owns TransOva Genetics in Sioux Center, Iowa. My oldest heifer is named Dolly and my youngest is Jolene. Both of my heifers are ORB with a majority of Simmental in them. I plan to attend the Fort Worth alternative, San Antonio, San Angelo, Houston, and Austin with my younger heifer. I was able to show my older heifer last year at San Antonio and Fort Worth and received second place in my class at both places.
