**First Name** Brylea

**Last Name** Ervin

**FFA Chapter or 4H Club Name** Midway FFA

**Validation Tag or Show reference#** D909

**County** Clay

**City** Henrietta

### **Description**

On March 31, 2020, I was able to purchase a black Angus heifer from 4D Cattle, in Henrietta, Texas. She was born in October of 2019. Over the past 8 month, I have been given the opportunity to exhibit Margarita across the state of Texas. We have been able to show at Texas Junior Angus Association Show, West Texas Fair, Heart of Texas, The United Show, Houston Calf Scramble Progress Show and as well as many jackpots. As the months have gone by, Margarita has grown and filled my expectations as a show heifer and my best friend. We have placed at the bottom and have worked our way to the top of some competitive classes of Angus. Margarita is currently eating Calf Master for Kerrs Feed in Henrietta, TX. She is an extremely calm heifer but loves to MOO.

As my senior year county show approaches, there is sadness in my heart but, Margarita and I will be able to continue our show career to several more Texas majors.

Due to Margarita, I have decided to further my show career by attending Trinity Valley Community College to exhibit cattle at a collegiate level.

At this time, I would like to thank Clay County Livestock Association for their dedication to the exhibitors and their projects.

**Quantity: 1**
