### **Description**

This year I participated with one gray Brahman heifer and a red Brahman heifer; however, they are only two months apart so they actually competed against each other in a class of seven. I asked my friend, Lane to help me show my gray heifer and she did an awesome job showing her. The gray heifer placed third and the red placed fifth which was good enough for me. I am very proud of my heifers because this was pretty much their first show and they did very good in the show ring. I have worked hard with them at home, but it took some time for me to feel comfortable to get out to any shows and my parents left that choice to me. It has been a tough past year and hope this year will be a better show season for everyone.
