Validation Tag or Show reference# 6807

County San Joaquin

City Patterson

Animal Weight (in Pounds) 73

Date of Reported Weight 06/14/2021

Description

Hello, my name is Hezekiah Sanchez and I am currently a freshman at Delta Charter High. I have just been elected Delta Charter FFA Sentinel for the 2021-2022 school year and this will be my first of hopefully several years taking a goat to the fair. I would greatly appreciate it if you would be able to attend AgFest this year and support me in bidding on my animal on Saturday, June 19 beginning at 9am. Due to all the COVID craziness, there will also be a live streamed feed of the auction as well as live bidding if you would prefer to support from afar. I have included a flyer including a buyer pre registration form.

I am raising a boer goat. I have been raising and taking care of her for about 15 weeks now. Come fair time, it will weigh anywhere from 60-105 pounds. Every morning and evening I come out to feed

and refill the water buckets. Everyweek, I change the bedding to make sure they have a clean, healthy environment. I do not raise the goat only for the financial gain, but also for the great learning experience on how to care for another life and manage my other obligations such as schoolwork, running track & cross country, FFA, and caring for my younger siblings.

The money I receive from the fair will be going towards a college fund for me to get a head start on saving up for the future. I also hope to raise another goat and bring it to the county fair in 2022.

Quantity: 73
