Validation Tag or Show reference# 6902

County San Joaquin

City Lodi

Animal Weight (in Pounds) 72

Date of Reported Weight 06/14/2021

Description

Hi my name is Mia Sporleder and this year I am selling my market goat Peanut. He is a Boer meat goat that I purchased from Skyelite Livestock breeders in Valley Springs. I got him when he was only about three months old and he weighed around 35lbs. Now he weighs approximately 72lbs and has built so much muscle over the time I have worked with him. I feed him a 3LB per day custom blend of Lamb Slam, Nutrena Country Feed, sunflower seeds (good for his coat and has given a beautiful shine to his hair), and a Glucoat supplement (which increases is appetite). Thank you in advance for your support of AgFest.

Quantity: 72
