Last Name Yepez-Saenz

FFA Chapter or 4H Club Name Lodi FFA

Short Description Market Goat

Validation Tag or Show reference# 6824

County San Joaquin County

City Lodi

Animal Weight (in Pounds) 133

Description

My name is Anahy Yepez and I am a member of the Lodi FFA Chapter. This is my third year in FFA and I raised a Boer goat this year, who I named Olly, for the 2021 San Joaquin Ag Fest. I acquired him this past February when he weighed around 60 pounds at 4 months old. I have spent 7-10 hours a week feeding, caring, and exercising him, and I have spent approximately \$650 so far. Olly is a very playful goat, I noticed this from the very beginning. He was always very calm and never gave me trouble to put on his halter or collar and he was very cooperative when it came to teaching him to walk with me. *It is my second year raising a goat and I already knew most of the things I needed to know to get him ready for fair, but I still learned so much more that I didn't know already working with him this year.* He showed me that taking care of a goat requires a lot of time, responsibility, effort, and most of all patience. Even though he was very cooperative when learning to walk, there were also times when he was stubborn and I had to be patient and put in extra work. After almost 4 months of

working with him, I can say that he was a great goat for fair and we worked well together. I am currently serving as Lodi FFA Sentinel, and next year I will be serving as Lodi FFA Secretary, and being an officer and a part of FFA has shown me that I want agriculture to be a part of my life forever which is why I want to be an Agriculture teacher and any proceeds I get from my project this year will go towards my goat for next years fair and into my savings for college. I would appreciate your support in purchasing my goat this year very much. Thank You!
