County San Joaquin

City Linden

Type of Sale Terminal/Market - Buyer Gets Project at High Bid

Description

Hello, I am Collette Hansen. I am 13 years old and I have been in the Linden-Peters 4-H welding project for three years. I have worked very hard on my BBQ Barrel. It is used to smoke/cook your meat. You can cook beef, chicken, GOAT and lots more.

I have enjoyed the learning process of building my barrel. I have learned what metal is ok to weld on and what metal is not safe to weld on. I have also learned to NOT grind my welds too much. My

welding skills have improved greatly, and so have my grinding skills. I have spent over 40 hours on my BBQ Barrel and hope you enjoy it for many years to come. It is a great way to cook for a lot of people.

My BBQ Barrel includes 1-55-gallon barrel, a lid with easy lift off handle, bottom vent, disk blade to hold briquettes or coals, three rods for hanging and twelve stainless steel hooks to hang your meat. There are side handles to move the barrel easily and a temperature gauge to tell the heat. You know, if you buy my goat and BBQ Barrel everyone will be talking about your summer BBQ's. I am also selling a goat, please go check it out. Thank you.

Update: I placed 2nd Overall in my division. I will be selling my barrel on the 19th.

Quantity: 1
