Validation Tag or Show reference# 306

County San Joaquin

Animal Weight (in Pounds) 1261

Date of Reported Weight 04/17/2021

City Escalon

Description

Hi! My name is Vivian Borba, I just finished my Senior year at Escalon High School. Along with being active in the FFA program at Escalon High, I am currently in my 9th year showing and will be showing with Escalon FFA. I served this year as chapter reporter and had an amazing year. I will be furthering my education this fall at Fresno State. I plan to major in Ag Education and be an Ag Teacher. Through most of my years in 4-H, I have shown Dairy Cattle-Breed but two years ago I decided to challenge myself and raise a Market Steer for AgFest. I enjoyed my project so much that I found myself raising Market Steers for rest of my showing career. I am looking for people who might be interested in buying or supporting my market steer project at this year's San Joaquin County AgFest. I have owned my steer, Dexter since November of 2020. He is a Charolais-cross that I bought from Jeff Wagner who is located in Valley Springs, CA. At that time he weighed 750. His diet has consisted of Oat Hay grown on our ranch, a feed grain mix that was developed and

marketed by Roland Pacheco, and Cob and rolled corn from Escalon Feed and Supply twice a day. As time went by his feed increased in pounds. As of Sunday June 13th Dexter weighed in at 1260 lbs! Later that day during the show he placed second in his market class and moved onto the FFA Champion Steer drive! I couldn't be more happier with the outcome of the 2021 Ag Fest! Thank you for taking your time to read my bio and hope to have your support!

Sincerely,

Vivian Borba, Escalon FFA
