**County** San Joaquin

**Animal Weight (in Pounds)** 1132

**Date of Reported Weight** 05/14/2021

**City** Linden

### **Description**

Hello, my name is Martin Wunderlich,

This is my third year with Linden FFA, I am a sophomore at Linden High School. It is also my third year raising a market steer. I enjoy raising beef projects because of the hard work and dedication it takes to produce a quality animal.

Harley Davidson is a locally bred and born and raised from the stock of Wagner Livestock, LLC out of Linden. He is grass hay and grain fed, he has been on grain his entire life. This year has been a long road, I purchased Harley back in October of 2020 from Jeff. At one point I was nervous that we wouldn't have a fair at all. I held on to faith that the Ag Fest committee would make sure that the show would go on for the kids.

Harley is a pretty cool animal. My dad always yells at me to work with him because he always jumps around and kicks and snorts when someone goes down there, he really just wants to play. He is a well mannered steer and is fun to work with. His favorite thing is to play with our long haired daughson. Bizz agrees to disagree with Harley though. I am looking forward to Ag. Fest and I am excited to have an in person show and sale.

**Quantity:** 1132
