**County** San Joaquin - 39 County

**City** Lodi

**Animal Weight (in Pounds)** 103

### **Description**

Hi! My name is Jessica Holloway and this is my 4th year in 4H raising and showing goats. I am very excited for AgFest this year, not only because we get to show in person, but I am showing a goat that was born and raised at our farm. We own both the sire and dam of my wether, and I showed them both in breeding classes last year. "Angus" has been easy to work with because we have been handling him a lot since he was born. His biggest fault is that he doesn't like to brace, he seems happy just walking backwards. I am working with him every day, so I'm sure he'll be ready for the show ring. Since I don't play sports, I have lots of time to put into my project. Please consider bidding on my goat, he has been fed very well and will provide a lot of meat for you. As of our last weigh in he was 102 lbs, and I expect he will be around 110 by sale day. Thank you for your support!

**Quantity:** 103
