Animal Weight (in Pounds) 104

Description

Hi! my name is Ava Staas and I am in 11th grade, going into 12th. This project was very important to me because I had to work extra hard to get things done with covid, and make my animal great! I am very excited for in person fair this year, and am thankful for all the support I received from my ag family and teachers to be able to show even with crazy times. Thank you for looking at my animal!

Quantity: 104
