## Description

Hey Everyone,

My name is Nicole Hernandez and I show through McDade FFA. This is my first year to show steers. This has been the best year ever. Even though it had unfortunate circumstances, I learned so much, and I would not change how it ended for the world. I learned how to handle a steer correctly, I actually used to be scared of them. When I would walk through the cattle barn if I was at a show with on of my other animals I would get so nervous. I had no idea all the things cattle needed to be healthy, how much they ate, and what it took to make them look good for the shows. I could not have asked for a better first year steer, Hank has been so good to me and has never dragged me ever. Parting with him will bring me great despair, but we all know his true purpose in the world. I am so thankful for Hank, and whoever ends up with him whatever you end up doing with him, he is the sweetest steer ever. I am glad I was able to show him in my county fair and in San Antonio. I had plans on taking him to Houston and Austin, but they were inevitably cancelled.
