Validation Tag or Show reference# 719

County San Joaquin

City Linden

Animal Weight (in Pounds) 224

Date of Reported Weight 06/16/2021

Description

Hello! My name is Mason Galluzi, this is my 7th year in 4H and my 3rd year in the swine group. I am in the 6th grade and enjoy airsoft, basketball, and playing with my friends. I work really hard at school and am pretty good at doing my chores without being asked, but sometimes a reminder is needed. During Covid, 4H was virtual so it has been a weird year and I miss my friends, but am very happy that things are going back to normal and we have an AgFest in person this year. AgFest is one of my most favorite times of year.

I named my pig Athena because it was the first girl name that popped up when I was doing research. She is an easy keeper and she likes to eat, sleep, and play around with her sisters. She weighs over 200 pounds (more than twice as much as me!!!) and is very rambunctious and energetic. I feed Athena twice a day and clean her pen daily.

Sometimes, when I work with her, she takes off running and it takes all of us to catch her up. Most people don't know how fast young pigs are, but they are FAST! I work very hard to make sure she has a clean, temperature-controlled pen and always has access to fresh, clean water and healthy food. I learn a lot from raising my pigs and I also have to be very disciplined- it is not fun cleaning pig pens when your friends are playing ball, but it is the responsible thing to do when you have animals. I enjoy 4H very much because I learn, grow and gain skills that will last a lifetime. Also, it is helping me prepare for college as every penny I make on Athena goes into my college account.

Thank you for your support!!!
