Animal Weight (in Pounds) 1194

Date of Reported Weight 07/12/2021

City Calhan

Description

Meet my composite steer "Scar" I bought this steer as a calf back in October. I chose this calf because I wanted a moderate framed calf that would hang well on the rail.

This calf has matured well. The only thing I would change is he actually ended up having a smaller frame than I had hoped. He did gain weight to his potential. He has been gentle to work with and has been healthy throughout.

Quantity: 1
