**County** Douglas

**City** Baldwin City

**Animal Weight (in Pounds)** 255

**Date of Reported Weight** 07/18/2021

### **Description**

Hello, my name is Seth Smasal. I am 14 years old and this is my 3rd year in the swine project. This summer I have helped my siblings raise 4 pigs. My pig weighs 255 pounds and I walk him almost everyday. We fill up our pigs' feeder about every 14 days and check it everyday when we walk them. We also set up an automatic water timer to fill up their water everyday.

Besides my pig project, I have done several other things in 4-H this year. Back in February, I gave a talk at 4-H Days about my cats and how I raised them. I also participated in the Model Meeting competition with a group of other members in my club. In May, my club voted to donate care packs for soldiers deployed overseas, and my family's contribution was working on getting information from a family friend who is in the military about what he likes to get while he is deployed as well as gathering and assembling the supplies he suggested.

I plan on using the money I earn from this year's fair to pay for the feed we bought for our pigs and also for the truck I will be driving to and from school this year. I am looking forward to the fair this year and greatly appreciate your time and consideration.
