City San Antonio

Animal Weight (in Pounds) 139

Date of Reported Weight 01/05/2022

Description

First of all, as a child I always had interest in farming, I love animals, as I got older my passion for them grew tremendously. I am proud of my achievements in FFA. I have a medium wool Hampshire lamb, Chip has come a long way, has gained muscle and is comfortable competing with other animals. I have competed twice in which in both competitions we placed 3rd and 4th place. It ain't easy managing a lamb, I spend approximately 2 hours a day caring for him. Anything from feeding, giving vitamins, shearing and exercising, but none of this would of been possible without my teachers advice. I also care for 5 Californian rabbits, to whom I am proud to say they were Madison Ag Fair reserved grand champions. I plan to continue my education in farming. I am grateful to be part of a program that will help me gain knowledge for my future goals.
