**County** Bexar

**City** San Antonio

**Animal Weight (in Pounds)** 150

**Date of Reported Weight** 01/08/2022

### **Description**

Meet my show lamb Dewey! Dewey is a medium wool that traveled down to San Antonio from the Dallas area in June of 2021. While most spent their summer traveling and relaxing I spent mine in the barn. I devoted countless hours to working him and preparing him for livestock shows. A picture perfect day for Dewey would be spent running through the parking lot, jumping off every bench and eating handfuls of alfalfa. He knows how to give me anxiety attacks like no other with his unpredictable accidents, but through all these health scares I've learned that not a whole lot can be predicted in the agricultural world. We can't envision when our livestock projects will encounter major setbacks, but we can promise to put them first in the hands of good care no matter the condition! :)

**Quantity:** 1
