FFA Chapter or 4H Club Name McAllen Jr. FFA

Short Description Cross breed lamb

County Hidalgo

City McAllen

Animal Weight (in Pounds) 150

Date of Reported Weight 02/03/2022

Description

Meet Mabel. He is a cross breed lamb and came all the way from Amarillo Texas. I started raising him in September of 2021 when he only weighed 70-80 lbs. At first, he was VERY wild and wouldn't let anyone get near him at all. It took a long time to break him. Now he sometimes wants to be played with and walked. He is a very powerful strong lamb and weighs over 150 lbs now, so it makes things hard at times. Over the past 5 months, I have learned that in order for good things to come, you need to work as hard as possible and put in the effort if you want to win. At my most recent show I won second place because I worked hard and practiced. If you don't do anything yourself, then you will never learn. Considering that this was my first year raising livestock I would say I've done a pretty good job. I appreciate any contribution you can make to my project!
