Type of Sale Premium - Exhibitor Keeps Project

Description

Meet my gilt kodak when i first acquired her on the 16th of October 2021. She was the nicest hog in the farm for the first day she was a bit scared of me but the second day we created a strong bond and since then she hasn't stopped following me everywhere.

i would usually spend 2-3 hours with her working and training because its my first year being in ffa and i wanted to win ribbons and more. For being my first year it being good she gave me a good year in ffa a lot of good experiences.

thank you for stopping by to learn a little more about kodak. please know that i sure would be grateful for an opportunity to do so again, so many and all donations would be gratetly appreciated.

Quantity: 1
