Description

Meet my cross gilt Gutt. I got her back in early October from a local breeder when she weighed only 30 lbs and her mom is my show pig from last year. Gutt got her name from her big appetite! She can eat up all of her feed in just a couple of minutes. She loves her daily walks and loves it when I brush her and put lotion on her. Gutt has been a lot of fun to raise as a project and has shown me a lot about hard work and patience.
