Description

My name is Skylar, I am 15 and this is my first time showing Californian rabbits. Normally I am behind a whip walking beside my Market Swine, but this year I thought, "Why not do both". This year we decided to breed our own rabbits. When I started my project, I thought I knew everything there was about rabbits. However, I quickly learned that they have sensitive stomachs and can get sick very quickly. By researching feed brands, reading the labels, and reaching out to local breeder, we found that 18% Protin was best for growing meat rabbits.
