Description

This is my Bluebutt Gilt named piglet. I purchased her in early November of 2021 from a breeder in Kirbyville. Piglet is hardly ever quiet hungry or not. When it is time for feedings she always eats well, but in the beginning she did have some diarrhea problems. Thankfully it was fixed with Medicean in about a week. Piglet had a case of pink eye at one point also, so piglet gets pink eye medicine in both eyes every two to three days to ensure she dose not get it aging. With that I have learned how to give a pig both eye medication and oral medication. Piglet has always been a pretty fast learner as well. She has placed 6th, 4th, and 3rd place (twice).
