**Validation Tag or Show reference#** 703

**County** El Paso

**City** Peyton

**Date of Reported Weight** 07/15/2023

**Short Description** Champion Market Goose

### **Description**

Hello, my name is Evan Jaworski. I am 16 years old, and I am in Angel Fire 4H club. I am in my ninth year of 4H. This year my 4H projects are chickens, ducks, market turkeys, and market geese. I like to build models, build Legos, fish, camp, play video games, and golf. I plan to attend Pikes Peak State College to study to be either an electrician or plumber.

I am raising Embden geese as they are a heavy breed and the fastest growing of the domestic goose breeds. The males are slightly larger than the females in this breed, but not by much. Geese require extra niacin in their diet, especially when they are newly hatched, so I supplemented their food with brewer's yeast which contains this nutrient. Niacin deficiency can cause leg and joint issues. Geese also really enjoy foraging for bugs and plants. I allow them to free range during the day as well as have access to

commercially available feed. They are on a waterfowl feed which is 19% protein. I have found that they eat their feed better if I mix the greens in with it as they really prefer plants to commercial food.

Thank you for allowing me to share my projects with you and thank you for supporting 4H.
