**County** El Paso

**City** Calhan

**Animal Weight (in Pounds)** 129

**Date of Reported Weight** 07/17/2023

### **Description**

Hello, my name is Landyn Kath, I take pride in being in 4-H, I love my club, as it has given me a sense of community.

I would like for you to meet my Suffolk lamb wether. I got him from the Snow Family, who breed Suffolk Sheep in Yoder, CO. Mrs. Snow had named him Peanut because she thought he was nuts, which has proven to be a great name for him, so I kept it. He loves to play and have fun, and this has been challenging at times.

In the beginning of my project at weigh in, I was worried because I thought Peanut wasn't growing fast enough, but I learned that lambs grow at different rates. After talking to the breeder and one of my leaders, they suggested that I continue with the feeding I was doing and exercise him a bit, and sure enough he started growing more.

With everything I have learned this year, Peanut and I became the champions in the rate of gain contest.

Along with raising a lamb, I also raise market and dairy goats. I ride and show my quarter horse and am currently working on training a yearling filly. I also compete on our county's Horse Bowl and Hippology team.

In the future I plan to become an architectural engineer and train reining cow horses for fun. I truly enjoy learning about agricultural business, and am proud to produce high quality food for our community.

I look forward to continuing to grow my project and and your support helps me to build my future in 4-H and continue learning.
