Description

Hello! My name is Cami Kranz and I am offering for sale my 2023 Reserve Market Broiler Trio. These birds were raised eating a chick starter that got them off to a great start. They moved onto a Meat Bird feed. They are always given fresh water daily with a broiler booster additive. This is needed because they grow so fast and need the support for their bones and muscles. It contains a balanced blend of vitamins, minerals, electrolytes, amino acids and probiotics. They were turned outside to enjoy the sunlight and to get a small amount of exercise.

They are very tasty should you choose to take the processed birds. We have had them numerous ways from chicken broth to putting them on the smoker. This is my 5th year in the poultry project and I enjoy showing my show birds and I enjoy raising a quality meat product.

Thank you for supporting 4-H and FFA!!
