**County** Anne Arundel

**City** Lothian

**Animal Weight (in Pounds)** 85

**Date of Reported Weight** 09/12/2023

### Description

Hi my name is Sadie Childress and I am in 5th grade at Lothian Elementary school. This is my goat "Toes". I got Toes from a lady on the Eastern Shore, Cathy. Cathy had already named Toes because he is all brown with a white spot on one of his feet on his toes.

Toes is a good goat. When we first got him home he was very scared of me but he had also just been neutered so he was hurting. In the first couple of days he broke out of his pasture and was on our front porch. My mom and I had to open the front door to try to let him in but caught him before he went all the way in.

I hope this has helped you learn about my goat Toes. I am a member in the Southern Maryland Agriculture Development Commission Program (SMADC). I would like to say

a special thank you to Jonas Lai for purchasing my market goat last year, thank you for supporting me. I plan to use this year's earnings for my future 4H project and my college. I hope this helped you get to know me and what I do for 4h.

**Quantity: 85**
