County Anne Arundel

City Lothian

Animal Weight (in Pounds) 95

Date of Reported Weight 09/13/2023

Description

This is Buzz. Since April, he and his friend Woody, have been working non-stop walking, training and washing (they love to get dirty). Buzz really has kept me on my toes. He eats a non GMO mixed feed twice a day and also has access to grass, hay and fresh water. Buzz and I have spent countless hours working together to develop a strong bond. He is strong and muscular, and can really drag you around.

Thank you for considering my lamb for purchase.

Quantity: 95
