Description

Hi everyone my name is Cece and this is my first year raising livestock. I've decided to raise a Suffolk/Hampshire mix named Bronco. Bronco is a very friendly and adventurous animal. He often spent his hours grazing on grass or playing with his sheep friends. Bronco eats food with select micronutrients that help support strong bones and a healthy immune system. He has access to fresh water, grass, and hay all day. Bronco and I have spent many hours since May exercising to build muscle.

Thank you for taking your time to consider my lamb!
