Description

Meet my cross hog, Blackberry. I purchased her in May from a well-known breeder in Mt. Airy. When we first got Blackberry, she was around 60 pounds. Blackberry was shy at first but warmed up fast. I snuggled her in her pen after I fed her and her friends. They would nibble on my boots. While I tried to warm her up to the whip, I would walk her in her pen. Once she was warmed up to it, I begin to take her out of her pen on walks. Blackberry loves to be scratched behind her ears. Most of my friends were worried about their pigs not eating enough, however my pig had to be watched as she ate so much and gained so much weight so quickly. She was raised on 18% protein Sunglo show feed. She is a big pig but to me she is a gentle giant. I believe that I gave her a wonderful, stress-free life.
