Short Description Luke

Validation Tag or Show reference# FFA 0089

County Anne Arundel

City Harwood

Animal Weight (in Pounds) 92

Date of Reported Weight 09/12/2023

Description

Luke is a wether that I purchased on the 25th of April this year; about three months from when he was born on January 19, 2023. Luke is fed an all-natural pellet feed called Blue Seal Goat Feed with an 18% protein amount per 50-pound bag. This option of feed promotes optimal muscle growth, bone density, and body condition for the best product. He has achieved a steady rate of gain, which shows that he is prepared for market. I raise my goats at the Rockhold Barn on Sudley Road in West River, Maryland.

Luke is a fun goat, follows directions, and would make a great addition to any farm or as a companion animal if you are looking for something other than a goat for the market. He likes being held and walks nicely without a halter as he is easy to manage.

When I am not tending to my goats, I am working on my Eagle rank in Boy Scouts, an active member of my 4H group, and I work at Greenstreet Gardens in Lothian, MD. Additionally, I would like to thank my family, fellow club members, and buyers from previous years for always supporting my endeavors.

Quantity: 92
