Description

Bo is a whether that I purchased on the 25th of April this year; about two months from when he was born on February 18, 2023. Bo is fed an all-natural pellet feed called Blue Seal Goat Feed with 18% protein amount per 50-pound bag. This option of feed promotes optimal muscle growth, bone density, and body condition for the best product. He has achieved his rate of gain steadily, which shows that he is prepared for market. I raise my goats at the Rockhold Barn on Sudley Road in West River, Maryland.

Bo is a dappled goat who has a fun side. He loves to run and jump on things. Bo may be small for his size but he has great muscle strength and looks great all around.

When I am not tending to my goats, I am working on my Eagle rank in Boy Scouts, an active member of my 4H group, and I work at Greenstreet Gardens in Lothian, MD.

Additionally, I would like to thank my family, fellow club members, and buyers from previous years for always supporting my endeavors.
