Last Name Ramirez

FFA Chapter or 4H Club Name Southwest FFA

County Bexar

City Von Ormy

Animal Weight (in Pounds) 165

Date of Reported Weight 12/30/2023

Description

I received my spotted gilt back in September from Cole Farms. She is housed at my school barn where I feed and take care of her necessities daily. Working with her everyday till my local show where I was Reserve breeding spot and Champion dark OPB in market. Watching her place like that made me realize she's something special and I wanted her to excel more. Come my county show she really brought it on, she competed against kids from different schools where she was a class winner in breeding and market then going on to winning breed champion in both breeding and market. Showing for the past 9 years I am very satisfied for how I did at my last county show. As a senior at Southwest High School I've decided I want to continue my agriculture career. I have been accepted to Tarleton State University where I will study Animal Science and get a minor in teaching. With this degree I plan to educate and motivate the upcoming generations in agriculture since it's so over looked.
