Description

This is my first 4H project, I have thoroughly enjoyed it and appreciated all the help along the way. this project required selecting a lamb, providing care through feeding and grooming, and developing a strong bond with my animal. I have trained the lamb for showmanship. I taught it to walk, set up, and respond to my commands in the show ring. Throughout the project, I've gained valuable skills in livestock management, responsibility, and dedication, as well as insights into the agriculture and livestock industries.
