**City** San Antonio

**Type of Sale** Premium - Exhibitor Keeps Project

### Description

Howdy y'all! My name is Reagen Zuniga. I'm a senior here at James Madison, and have been showing livestock since my freshman year. Throughout my years here in the AMP program I've raised pigs, chickens, and a goat! This year I have two pigs names Bean and Lucy. Also a goat named Mary Ester. Being able to have these experiences raising animals have been such a blessing. The knowledge I have gained from classes I've taken to the different situations I faced in the barn, have all helped me discover what I'm going to do for the rest of my life. I plan on going to Tarleton to major in Ag Education and minoring in Animal Science. With the help of your donation, it will help further my education of being an Ag teacher to help raise the next generation of FFA students, by showing them my love and passion for animals and the FFA.

**Quantity:** 1
