Description

I have a pretty amazing Berkshire Barrow that means a lot to me. I took care of his mother, I personally delivered him and his litter, castrated them, ear notched them, vaccinated them, and have been a part of raising him his whole life. I am in a vet program at my High School and I leave for college next year where I hope to pursue my dreams of becoming a large animal veterinarian. Please click on my link to see more photos and more about me. Thanks to everyone who is part of this auction giving us a chance to save our seasons. I plan on taking whatever I make this year and applying it towards my college education next year!
