Description

Bandit is a cross breed steer with a silver color. He has width over his top, and an impressive rump with muscle definition in his shoulder and lower quarter. He is full of energy and has a personality like no other. He may have started off small but has grown into a proportionate steer. When I drew Bandit from the lot of steer, I knew I would have my work cut out for me. He was a challenge from the beginning and had to spend many hours just learning to gain his trust. He took more time than most steer to accomplish getting a rope on him, walking him, bathing him and overall dealing with his day to day needs. I have learned a lot about patience and determination throughout this process of raising Bandit. We have formed a bond through this process and have raised him to the best of my ability. He has gained about 750 pounds from the day I brought him into the barn which is a huge accomplishment for myself and Bandit.
