Description

My project experience has been easy so far. She starting eating a little food, which was not enough. So, I gave her a littleover 1/4 cup of feed and sometimes at hay and supplement everyday. Would also, would feed her with cilantro sometimes. Her feed would last to about the whole day; feeding days are off and on. SHe dose not pee in her cage all the way. She need more fat but for the most part she definetly has gotten bigger.

Quantity: 1
