Animal Weight (in Pounds) 203

EAR TAG# 452

Description

Hi Im Sloane Wright, this is my third year apart of the Cy-Fair FFA's chapter and my first year raising a pig! If you are wanting high quality pork don't worry. I have been raising this pig with care and diligence for around four months now. As a result you'll find that he falls within the perfect market weight range for quality meat with an ideal muscle to fat ratio. He exercised regularly and was on a healthy diet of premium hog show feed. With the well conditioned meat and high quality care he received you wont want to miss out on this hog.

Quantity: 1
