City Baytown

Description

My name is Reagan McCawley, I am a senior at Barbers Hill High School. I have been involved within the showing industry since I was 5 years old, as YPS being my first show ever. I am so blessed to have been given all the opportunities through this industry by all the new family I have met along the way. I am a very well rounded student. I will be graduating 8th in my class, and I helped establish the Girl Up club at Barbers Hill this year, where I lead as Treasurer. I am also involved in the BH psychology club and serve as the National Honor Society Secretary. I plan on attending the University of Houston to pursue a degree in psychology with hopes of becoming a Pediatric Neuropsychologist. I am a very ambitious individual having the mindset to help others always, which is why I have picked the career field I have. I want to be the source of relief and support for other individuals in rough times of their lives, and I ultimately want to make the largest impact that my hands are blessed to make.
