Animal Weight (in Pounds) 8 lb

Date of Reported Weight 02/27/2024

Description

Starting in January I went and picked up our broilers and the race was on. The past 6 week has been late nights, cold morning and regulating the temperature of my birds. I have a feeding schedule of feeding and walking every few hours. With the help of my father while I am in school we made it through another season. This is my 1st year showing broiler but i watched my older brother for years. I am 9 years old and in 4th grade. I thank you for your support for this year and hopefully many more to come.

Quantity: 1
