**Date of Reported Weight** 03/25/2024

**City** JASPER

### **Description**

My project steer is named, Gus! I purchased him in May and began the training process. It is important to me that I work hard to raise a top-quality animal tending daily to it to help maintain a healthy weight along with exercising as we near the show date. This project has been an investment of my time and money. The feed and care along with the purchase of the steer is money invested in my project, but most importantly I have learned a lot in the process. I am a current member of the Jasper FFA Chapter. I appreciate in advance your consideration of supporting me and my future!

**Quantity:** 1
