**Description**

My name is Brendan Hall. I am 16 years old and a 10<sup>th</sup> grader at Hamshire-Fannett High School. This is my fourth year to raise and show chickens. I have enjoyed this project as it is teaching me responsibility. I have learned additional things about chickens during the process this year. The most important thing I learned was staying on schedule with the feeding program. Predicting the quantities of feed needed at each stage was the most challenging part of my project. I enjoyed raising the chickens and am looking forward to doing it again next year.

**Quantity:** 1
